

- Why is this project so important to you?
- Do you understand that we the people who the state works for not the other way around understands your intent to destroy farm land in a power grab in the name of fish.
- Do you understand that the customers of TID & MID know that these companies have been stewards of are our rivers long before your board was created and have done a great job?
- Can you prove beyond the shadow of doubt, that this attempt to improve the conditions for the fish will improve the environment how?
- Do you understand that fish and other wildlife are adaptive? To say that they are not is a lie.
- Do you realize how much money, man hours, and agency's are involved? You have wasted our time and valuable resources as sign of your poor judgement.
- What are your plans once you ruin our aquifers? We live in a desert! Why don't you use desalinization plants in the Bay Area & LA?
- Why do you want to collapse our Farming Industry over Salmon. Salmon can adapt to other places or of you would get your fisheries brought up to snuff we would not have this problem. Do you understand we feed the Nation?

Please vote no on this project.

Sincerely,

Suzanne Rodriguez
