1 PORTION OF TRANSCRIPT OF PROCEEDINGS

2 (20:20 - 22:45)

3 --oOo--

4 VICE-CHAIR FRANCES SPIVY-WEBER: Well, actually
5 we had lots of rain in Southern California. So in light
6 of that potential, we are now to the informational item
7 of California's ongoing drought emergency.

8 Cathy is coming up with her correct name this
9 time, I suspect. And Bill, are you -- okay. Go ahead.

10 CATHY MROWKA: Good morning. It is a very brief
11 item this morning. During the past two weeks, we did
12 not issue any additional water shortage notifications.
13 That was formerly called "curtailment" but now they are
14 "water shortage notifications." We have been monitoring
15 different thunderstorm activities, and we did not see
16 any need for additional notifications.

17 We have conducted now a total of approximately
18 250 inspections to make sure that parties are complying
19 with the water shortage notifications. And tallying our
20 results from those inspections and deciding what
21 warrants additional actions, things of that nature.

22 We have issued three enforcement items during
23 these last two weeks. We issued a cease and desist
24 order to West Side Irrigation District, a draft cease
25 and desist order. A draft cease and desist order to

1 Hodgetts. That was a water truck filling operation.
2 And an administrative civil liability action to Byron
3 Bethany Irrigation District.

4 We issued one Temporary Urgent Change Petition.
5 That was to El Dorado Irrigation District. It issued on
6 July the 15th. And it allows a decrease in the minimum
7 flows to the wastewater into Deer Creek. This will
8 boost the use of treated wastewater within the El Dorado
9 Irrigation District service area.

10 The order includes specific monitoring
11 requirements that were agreed to by the District and
12 California Department of Fish and Wildlife.

13 VICE-CHAIR FRANCES SPIVY-WEBER: Thank you for
14 all of those actions. I have been following those. And
15 I know, particularly in El Dorado, they are quite
16 anxious to make sure they are using recycled water and
17 not potable water. So that is good.
