HYDROELECTRIC POWER GENERATION/OTHER NONCONSUMPTIVE USE *I hereby certify that I am directly diverting water for hydroelectric power generation or other nonconsumptive use and all water diverted is returned to the stream.*

The questions below regarding fire suppression, air quality, and human health and sanitation request information to better understand your specific water supply situation, but are not intended to provide relief from the requirement to cease diversion under this water right.

FIRE SUPPRESSION - *I hereby certify that there is no alternative source available for fire suppression use as required by CA Department of Forestry and Fire Protection or other appropriate authority, and that the estimated rate of use would be 0 gallons per minute or 0 cubic feet per second.*

AIR QUALITY - *I hereby certify that there is no alternative source available to address critical air quality impacts, as required by CA Air Resources Board or other appropriate authority, and that the estimated rate of use would be 0 gallons per minute or 0 cubic feet per second.*

HUMAN HEALTH AND SANITATION -

I hereby certify there is no alternative source available to supply basic human health and sanitation needs.

Curtailment of this source would prohibit compliance with state or local health or drinking water regulations.

Water diverted under this water right is operated by:

A public water system permitted by or regulated by the SWRCB's Division of Drinking Water (DDW), formerly known as the CA Department of Public Health.

A public or private water company permitted by or regulated by a local county health department or by the CA Public Utilities Commission (CPUC)

A private party serving fewer than 15 connections.
