Re: Final Environmental Impact Report on the
Consideration of Modifications to U.S. Bureau of
Reclamation's Water Rights Permits 11308 and 11310
(Applications 11331 and 11332) Cachuma Project

Dear Ms. Farwell:

As you know, the City of Solvang ("Solvang") previously commented on the State Water Resources Control Board's 2003 DEIR, the 2007 RDEIR and, most recently, the 2nd RDEIR, for the above-referenced Cachuma Project.

Solvang has reviewed the Final Environmental Impact Report ("FEIR") for the Cachuma Project, including the responses to comments, and does not object to the FEIR's inclusion in administrative record. Solvang hereby reserves all rights to participate fully in any future evidentiary hearings or other administrative processes relating to the Cachuma Project Proceeding including, without limitation, the right to cross-examine or directly examine all witnesses and to submit rebuttal evidence.

Solvang is within the Santa Ynez River Water Conservation District ("SYRWCD"). Solvang has participated in this proceeding through the SYRWCD and on its own behalf. Solvang has reviewed and agrees with the suggested clarifications and corrections stated in the letter to you dated January 9, 2012 from Santa Ynez Water Conservation District, Santa Ynez River Water Conservation District, Improvement District No.1, and Cachuma Conservation Release Board. Solvang urges you to adopt these helpful clarification and corrections.

Jane Farwell
January 5, 2012

Solvang appreciates the opportunity to review and comment on the FEIR. Should you have any questions or require clarification regarding any of our comments, please contact the undersigned.

Very truly yours,

Christopher L. Campbell
