

Dec 14

Telephone conversation with Leo Shapovalov

- he started working here for F $\frac{1}{2}$ G in 1940.
- believes that the runs dwindled after his ~~Ford~~ Pades was built.
- Suggests checking records at Inland Fisheries Branch, and Yountville (regional office)

Remain with an administrative asst. of Inland Fisheries Branch with his estimates of the runs.

says talk to Almer Coadoni at Inland Branch
