* Commodities and farmed acreages were extracted from the 2004 San Joaquin County Agricultural Commissioner's Office Pesticide Permitting Program Database.

** Spatial boundaries for the analysis were obtained from the San Joaquin County Community Development Department Geographic Information Systems Division. For the purposes of the analysis, irrigation and water district acreage within the South Delta Water Agency have been aggregated with the South Delta Water Agency. Irrigation or water district acreage outside of the South Delta Water Agency are collectively grouped as South County.

*** Commodity valuation was obtained from the San Joaquin County 2004 Annual Crop Report.
