Attachments: Sandy_Bar_Pool-staff_guage 2009.csv; Sandy_Bar_Pool_#2_mid flood plain.2009.csv; Sandy Bar Thermal Map.pptx

We don't have any specific temperature study reports...just raw excel files. We have reports that describe fish usage and physical habitat and flow characteristics and some thermal images of the sandy bar site.

I can work on getting you a site map of the exact temp logger locations, but for now I have this ppt slide with a map pulled from a mainstem Klamath thermal imagery report. Pool 1 is on the right side and pool 2 is on the left end of the off channel feature. Pool 1 is more representative of the Stansaw Cr pool because of the depth and tree cover. The water is typically warmer in pool 2 because it more exposed on the river bar.

Subject: RE: Sandy Bar data question

I'll look into getting you the stream temp data from 2009 and hopefully some photos.

Subject: Sandy Bar data question

Good Morning Toz,

I was interested if the data that you referenced in the attached email was ever formalized into a report? If so can I get a copy. Also, do you have any photos of the upper and lower off channel ponds on Sandy Bar Creek ? Preferably where the temperature loggers were located.

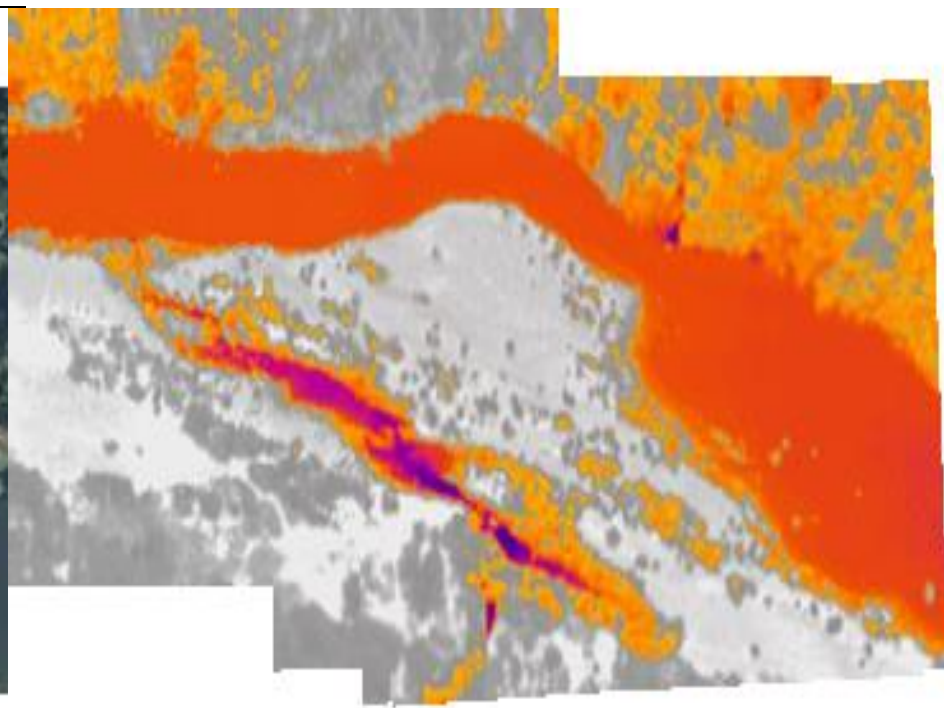

Thank you,

Skyler Anderson, Environmental Scientist
