601	1/25/11	Marble Mountain Resort.Dude Ranch 92520 Mwy 96, Somes bar CA 95568	Alleged Illegal Water Diversion-	NPS		closed	Klamath River, 300 yards up from Klamath River on Stanshaw Creek	11-14-2011 Mark Neely was to check with Andy. Please update us. Mark has not yet checked with Andy. ACTION ITEM FOR MARK. 4-25-2011 Update from Andy Baker "I have another inspection scheduled this Friday with NOAA and USFWS. Lisa Unkefer is allowed to continue tailwater work this year. Emmerson hired Carson Jefferes who worked for UCD doing the TNC/Big Springs study that we funded. He is continuing DFG fisheries monitoring on the ranch. DFG is banned from the property. I've been working on the 13267 request for ranch plan and will make recommendation to Cat next week after I gather more info." Andy Baker is the assigned staff. Dewatering Stanshaw Creek for hydro plant. Increase in temperature measured by agency/tribe biologist. Past sediment discharges from water ditch failures/mudslides into Stanshaw Creek/Klamath River. Happened in the past could reoccur. This site has been referred to SWRCB Div. of Water Rights, no enforcement taken, case was reviewed and determination made in favor of the landowner. Complainant states he has been contacting agencies for 10 years without resolution. Only wants to protect coho. Pre 1914, water right for hydro plant, diverts 3CFS or 70% - 90% off Stanshaw Creek during summer. Diversion on USFS land ~300 yds upstream of Klamath. Water diverted from Stanshaw Creek diverted into adjacent watershed downstream of hydro plant. RP has water right for .45 CFS not 3 CFS. Over two years since previous complaints filed with unknown staff from (NCRWQCB), Dennis Maria (DFG), Tim Broadman, (NOAA Law Enforcement), Chuck Rich (SWRCB Division Water Rights Complaints), USFS, Tribes, River Keeper <i>Mark will check with Andy and report back before or at the 10/2011 complaint meeting.</i>		Sis		AB	SRF	123	Closed as Andy Baker is developing 13267 Letter for a Ranch Plan-
