

STATE OF CALIFORNIA
 CALIFORNIA ENVIRONMENTAL PROTECTION AGENCY
 STATE WATER RESOURCES CONTROL BOARD

DIVISION OF WATER RIGHTS

PERMIT FOR DIVERSION AND USE OF WATER

PERMIT 20955

Application 25446 of Michael Brickell, Elizabeth Brickell, Barbara Short, Steve Robinson, Bruce Robison, and Susie Robison
Patterson Ranch Rd., Somes Bar, CA 95568

filed on August 3, 1977, has been approved by the State Water Resources Control Board SUBJECT TO PRIOR RIGHTS and to the limitations and conditions of this permit.

Permittee is hereby authorized to divert and use water as follows:

- | | |
|------------------------------------|-------------------------------|
| 1. Source: | Tributary to: |
| <u>(1) Unnamed Stream</u> | <u>Sandy Bar Creek thence</u> |
| _____ | <u>Klamath River</u> |
| <u>(2 & 3) Unnamed Streams</u> | <u>Stanshaw Creek thence</u> |
| _____ | <u>Klamath River</u> |
| _____ | _____ |
| _____ | _____ |

2. Location of point of diversion:	40-acre subdivision of public land survey or projection thereof	Section	Township	Range	Base and Meridian
By California Coordinates of Zone 1: (1) North 790,700 and East 1,592,200	NW ¹ / ₄ of NW ¹ / ₄	27	13N	6E	H
(2) North 790,100 and East 1,593,000	SE ¹ / ₄ of NW ¹ / ₄	27	13N	6E	H
(3) North 790,500 and East 1,593,800	NE ¹ / ₄ of SW ¹ / ₄	27	13N	6E	H

County of Siskiyou

3. Purpose of use:	4. Place of use:	Section	Township	Range	Base and Meridian	Acres
Domestic						
Irrigation	NW $\frac{1}{4}$ of SW $\frac{1}{4}$	27	13N	6E	H	10
	SW $\frac{1}{4}$ of NW $\frac{1}{4}$	27	13N	6E	H	10
					Total =	20

The place of use is shown on map on file with the State Water Resources Control Board.

5. The water appropriated shall be limited to the quantity which can be beneficially used and shall not exceed 1,200 gallons per day by direct diversion from January 1 to December 31 of each year for domestic purposes; and 0.14 cubic feet per second by direct diversion from April 1 to October 30 of each year for irrigation purposes. The maximum amount diverted under this permit for all uses shall not exceed 60 acre-feet per year. (0000005)

6. The amount authorized for appropriation may be reduced in the license if investigation warrants.

7. Complete application of the water to the authorized use shall be made by December 31, 2003. (0000009)

8. Progress reports shall be submitted promptly by permittee when requested by the State Water Resources Control Board until a license is issued. (0000010)

9. Permittee shall allow representatives of the State Water Resources Control Board and other parties, as may be authorized from time to time by said Board, reasonable access to project works to determine compliance with the terms of this permit. (0000011)

10. Pursuant to California Water Code Sections 100 and 275, and the common law public trust doctrine, all rights and privileges under this permit and under any license issued pursuant thereto, including method of diversion, method of use, and quantity of water diverted, are subject to the continuing authority of the State Water Resources Control Board in accordance with law and in the interest of the public welfare to protect public trust uses and to prevent waste, unreasonable use, unreasonable method of use, or unreasonable method of diversion of said water.

The continuing authority of the Board may be exercised by imposing specific requirements over and above those contained in this permit with a view to eliminating waste of water and to meeting the reasonable water requirements of permittee without

unreasonable draft on the source. Permittee may be required to implement a water conservation plan, features of which may include but not necessarily be limited to (1) reusing or reclaiming the water allocated; (2) using water reclaimed by another entity instead of all or part of the water allocated; (3) restricting diversions so as to eliminate agricultural tailwater or to reduce return flow; (4) suppressing evaporation losses from water surfaces; (5) controlling phreatophytic growth; and (6) installing, maintaining, and operating efficient water measuring devices to assure compliance with the quantity limitations of this permit and to determine accurately water use as against reasonable water requirements for the authorized project. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such specific requirements are physically and financially feasible and are appropriate to the particular situation.

The continuing authority of the Board also may be exercised by imposing further limitations on the diversion and use of water by the permittee in order to protect public trust uses. No action will be taken pursuant to this paragraph unless the Board determines, after notice to affected parties and opportunity for hearing, that such action is consistent with California Constitution Article X, Section 2; is consistent with the public interest; and is necessary to preserve or restore the uses protected by the public trust. (0000012)

11. The quantity of water diverted under this permit and under any license issued pursuant thereto is subject to modification by the State Water Resources Control Board if, after notice to the permittee and an opportunity for hearing, the Board finds that such modification is necessary to meet water quality objectives in water quality control plans which have been or hereafter may be established or modified pursuant to Division 7 of the Water Code. No action will be taken pursuant to this paragraph unless the Board finds that (1)adequate waste discharge requirements have been prescribed and are in effect with respect to all waste discharges which have any substantial effect upon water quality in the area involved, and (2)the water quality objectives cannot be achieved solely through the control of waste discharges. (0000013)

12. This permit shall not be construed as conferring upon permittee right of access to the point of diversion. (0000022)

Application 25446
Page 4

Permit 20955

13. The equivalent of the authorized continuous flow allowance for any 30-day period may be diverted in a shorter time, provided there is no interference with other rights and instream beneficial uses, and provided further that all terms and conditions protecting instream beneficial uses are observed. (000027)

This permit is issued and permittee takes it subject to the following provisions of the Water Code:

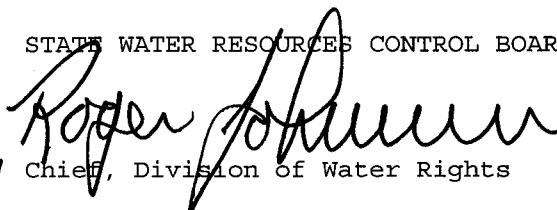

Section 1390. A permit shall be effective for such time as the water actually appropriated under it is used for a useful and beneficial purpose in conformity with this division (of the Water Code), but no longer.

Section 1391. Every permit shall include the enumeration of conditions therein which in substance shall include all of the provisions of this article and the statement that any appropriator of water to whom a permit is issued takes it subject to the conditions therein expressed.

Section 1392. Every permittee, if he accepts a permit, does so under the conditions precedent that no value whatsoever in excess of the actual amount paid to the State therefor shall at any time be assigned to or claimed for any permit granted or issued under the provisions of this division (of the Water Code), or for any rights granted or acquired under the provisions of this division (of the Water Code), in respect to the regulation by any competent public authority of the services or the price of the services to be rendered by any permittee or by the holder of any rights granted or acquired under the provisions of this division (of the Water Code) or in respect to any valuation for purposes of sale to or purchase, whether through condemnation proceedings or otherwise, by the State or any city, city and county, municipal water district, irrigation district, lighting district, or any political subdivision of the State, of the rights and property of any permittee, or the possessor of any rights granted, issued, or acquired under the provisions of this division (of the Water Code).

Dated: **FEBRUARY 26 1998**

10. Storage					
Reservoir name	Spilled this year	Feet below spillway at maximum storage	Completely emptied	Feet below spillway at minimum storage	Method used to measure water level

Conservation of Water	
11. Are you now employing water conservation efforts?	Yes
Description of water conservation efforts	we use heavy mulch in our gardens, irrigate at night, use no hydro power during summer months, are converting major crops to drought resistant types, like peppers and practice hugelkulture with certain plants. many areas use drip irrigation. we don't water lawns. we rarely wash our cars.
12. Amount of water conserved	

Water Quality and Wastewater Reclamation	
13. During the period covered by this Report, did you use reclaimed water from a wastewater treatment facility, water from a desalination facility, or water polluted by waste to a degree which unreasonably affects the water for other beneficial uses?	
14. Amount of reclaimed, desalinated, or polluted water used	

Conjunctive Use of Groundwater and Surface Water	
15. During the period covered by this Report, were you using groundwater in lieu of available surface water authorized under your permit?	No
16. Amounts of groundwater used	

Additional Remarks
during our on site review by the water board earlier this year, we showed that the small streams enter our property in the middle and we have a clear riparian right as well as this appropriated right. also, we are organic growers and use no chemicals or pesticides. the water leaving our property is as clean as it is when it enters. finally, there is actually more water leaving the property due to the ground water on the land.

10. Storage

Reservoir name	Spilled this year	Feet below spillway at maximum storage	Completely emptied	Feet below spillway at minimum storage	Method used to measure water level

Conservation of Water

11. Are you now employing water conservation efforts?	Yes
Description of water conservation efforts	we use heavy mulch, night watering, very limited hydro power and have been planting more drought resistant crops like peppers. we are also incorporating a permaculture practice called hugelkulture, placing wood under certain plants to retain moisture.
12. Amount of water conserved	

Water Quality and Wastewater Reclamation

13. During the period covered by this Report, did you use reclaimed water from a wastewater treatment facility, water from a desalination facility, or water polluted by waste to a degree which unreasonably affects the water for other beneficial uses?	No
14. Amount of reclaimed, desalinated, or polluted water used	

Conjunctive Use of Groundwater and Surface Water

15. During the period covered by this Report, were you using groundwater in lieu of available surface water authorized under your permit?	No
16. Amounts of groundwater used	

Additional Remarks

the stream that flows through my property is as low as i have ever seen it. i am doing everything i can think of to conserve water so that i can continue to grow my own food. i rarely use hydro power during the summer now that i have put in more solar electric. i use heavy layers of straw mulch on everything and water just enough and no more.

[SUMMARY OF FINAL SUBMITTED VERSION]**PROGRESS REPORT BY PERMITTEE FOR 2010**

Primary Owner: MOUNTAIN HOME

Application Number: A025446

Permit Number: 020955

Date Submitted: 2011-07-01

Compliance with Permit Terms and Conditions

I have reviewed my water right permit	Yes
I am complying with all terms and conditions	Yes
Description of noncompliance with terms and conditions	
Intake location has been changed	
Description of intake location changes	
Type of use has changed	
Description of type of use changes	
Place of use has changed	
Description of place of use changes	

Permitted Project Status

Project Status	Complete
Construction work has commenced	
Construction is completed	
Beneficial uses of water has commenced	
Project will be completed within the time period specified in the permit	
Explanation of work remaining to be done	
Estimated date of completion	

Purpose of Use

Domestic	5 people, 20,000 square ft. garden.
Irrigation	2 Acres Vegetables
Power	0.8 kW

Month	Amount directly diverted or collected to storage (Gallons)	Amount used (Gallons)
January	648000	80000
February	648000	80000
March	648000	80000
April	648000	120000
May	400000	200000
June	300000	200000
July	250000	200000
August	250000	200000
September	250000	200000
October	300000	100000
November	450000	80000
December	648000	80000

Total	5440000	1620000
-------	---------	---------

WR-19

Month	Maximum Rate of Diversion (GPD)
January	21600
February	21600
March	21600
April	21600

June	10000
July	8330
August	8330
September	8330
October	10000
November	15000
December	21000

Reservoir name	Spilled this year	Feet below spillway at maximum storage	Completely emptied	Feet below spillway at minimum storage	Method used to measure water level

Conservation of Water	
Are you now employing water conservation efforts?	Yes
Description of water conservation efforts	We water our gardens at night to reduce evaporation. We are using drip irrigation in some areas. We shut off hydro-power during hot days.
Amount of water conserved	0.1 Million Gallons

Water Quality and Wastewater Reclamation	
During the period covered by this Report, did you use reclaimed water from a wastewater treatment facility, water from a desalination facility, or water polluted by waste to a degree which unreasonably affects the water for other beneficial uses?	No
Amount of reclaimed, desalinated, or polluted water used	

Conjunctive Use of Groundwater and Surface Water	
During the period covered by this Report, were you using groundwater in lieu of available surface water authorized under your permit?	No
Amounts of groundwater used	

Additional Remarks
Our water usage continues to go down as we use conservation methods. Also, we use far less water than we are permitted to use. Additionally, we have a riparian right as this tiny creek is on our property. We will continue to conserve water as much as possible.
