REMARKS (Identify the item you are explaining, additional pages may be attached.)

#1 - SWRCB denied dependable Mokelumne River water to the District on faulty assumption that Folsom South Canal water would be available. Only undependable surplus water is available while Mokelumne River water is exported to East Bay Municipal Utility District out of the watershed and area of origin.

#15 - Financing to use additional Mokelumne River not available due to lack of dependability of surface water. Surface water use is uneconomic due to costs of maintaining pumps, filters and power contracts needed when surface water is unavailalbe
