ATTENTION: Harold Conkling

Gentlemen:

RE Application 5170

This District has been advised that Mr. George Devore of the Sierra Pacific Power Company has consulted with Mr. Conkling in the matter of an extension of time until "the operative date of the Truckee River Agreement" for filing the amended form of our application 5170 and application with the Federal Power Commission. Mr. Devore stated in effect that after explaining the many minor reasons and the two major reasons set forth in our letter of August 2, that you were of the opinion that such an extension of time could be granted as the circumstances were very unusual. May we have a confirmation or statement granting an extension of time until "the operative date of the Truckee River Agreement" for amending our application 5170.

Very truly yours,

W.C.W.C.D.
