Dear Mrs Siebal,

I am writing concerning the removal of the Klamath Dams in Siskiyou County California.

I'm not going to tell you all the reason why they should not be taken out I don't think I can add any thing that has not already been wrote.

But we are a Christian Family and we are quit aware that we are to take care of our earth that our God given right! But I know we are created in God's image and we are his Children and it's pretty sad when fish + nature become more important than his Children + and their happiness.

I'm quit aware that in the day like a few thousand yrs Dinosaurs roamed this earth but my life is not any worse because I don't have a dinosaur stake on my plate!! The salmon will always be here and if not so b it people a 1,000 yrs from now will not be effected. Please do what ever you can so that we can keep our beautiful lakes

Jerry + Linda Newton
