Subject: I Support Klamath Dam Removal
Date: Monday, February 4, 2019 9:40:51 PM

Dear State Water Resources Control Board,

I strongly support the full removal of the lower four Klamath River dams. The Draft Environmental Impact Report (DEIR) affirms that dam removal is the best alternative and would comply with water quality requirements.

If the Hoopa and Yuroks would police the so called subsistence gill net fishing it would go a long way to helping this fishery. Lots of adult steelhead also end their return to spawn in the nets.

Dam removal will not affect irrigated agriculture: none of the dams slated for removal provide agricultural diversions.

Undam the Klamath!

Sincerely,
Todd Turner
