

**PUBLIC NOTICE FOR
CLEAN WATER ACT 401 WATER QUALITY CERTIFICATION
BEFORE THE STATE WATER RESOURCES CONTROL BOARD**

An application for water quality certification under section 401 of the Clean Water Act for the following project was filed with the State Water Resources Control Board (State Water Board). California Code of Regulations, title 23, section 3858 requires the Executive Director of the State Water Board to provide public notice of an application at least twenty-one (21) days before taking certification action on the application. The typical notice period may be shortened in an emergency. Written questions and/or comments regarding the application should be directed to:

PROJECT:	Our House Diversion Dam Emergency Sediment Removal
APPLICANT:	Yuba County Water Agency
CONTACT:	Willie Whittlesey
COUNTY:	Yuba
PUBLIC NOTICE:	April 4, 2017
PROJECT STATUS:	Pending

PROJECT DESCRIPTION: Yuba County Water Agency (YCWA) is proposing emergency work to clear sediment clogging the fish release valve and the low level outlet valve at the Our House Diversion Dam. During the January and February 2017 storm events, the Our House Diversion Dam fish release and low level outlet valves became impacted by sediments moving downstream with the high flows which peaked at over 22,000 cubic feet per second. YCWA would use divers to suction dredge the sediment clogging the outlet valves, and discharge to the river channel downstream of the dam and weir, mimicking the way it would pass through the low level outlet during a sediment passage event.
