I was very disappointed that not one of the State Water Resources Control Board was able to "clear their calendars" and attend this meeting which was so important to those of us in the Lake Almond Basin. In view of your absence I certainly hope you will spend extra time and effort in reviewing all of the comments and data that were collected at the meeting.

The community stands united in its disapproval of the proposed thermal curtain and its almost certain ill effect upon the lake, the economy, and the environment for wildlife.

Additional space? Please use other side.
