Dear Mr. Parks

I am a customer of Tuolumne Utilities District and live in the community of Twain Harte. We rely on water from Lyons Reservoir which receives its source from Pinecrest Lake. I am in strong support for the Mitigated Negative Declaration of PG&E's Pinecrest Lake Level Modification Project that proposes that PG&E be allowed to lower the surface elevation of Pinecrest Lake , until and including Labor or Day each year, from the current minimum elevation of 5,608 feet to a range of 5,606 and 5,600 feet.

I intend to do my part in water conservation but in order to maintain health and well-being during these continued years of drought, we do need to have the rules in place modified.

Sincerely,

Dennis Honeychurch
