March 2015

Peter Barnes  
State Water Resources Board  
P.O. Box 2000  
Sacramento, CA

Dear Mr. Barnes -

I wish to join the many others, speaking  
for the entire community against the  
removal of cold water from Lake Almanor.

Ignoring the tree-planting solution  
originally proposed indicates a renal  
attitude. The thermal curtain won't work,  
will cost millions and will destroy the  
community. You must reconsider.

Sincerely,  
Anne Foote
