Mr. Barnes,

As resident of Chester and an avid outdoorsman and fisherman, I am appalled about the adverse ecological, biological, and economic effects the proposed "Thermal Curtain" will have on Lake Almanor and the surrounding community.

It is very disappointing that the Lake Almanor community has to continue the fight against the use of a Thermal Curtain at Lake Almanor. Why ruin one of the state's proven fisheries and scenic recreational areas for the sake of government compliance? Please listen to the residents and recreational visitors - no one wants or supports the use of a Thermal Curtain at Lake Almanor. Please reinvest more time to consider other alternative solutions that will not destroy a thriving ecosystem that we have here at Lake Almanor.

I hope you will use all of your expertise and influential decision making to oppose the thermal curtain and its attendant adverse effects on the survival of this valuable resource.

Thank you for your consideration.

Sincerely,

Marvin Huff
